

Rooftop Ventilator

SPEED CONTROL 30-3004

The device has been developed adjust the rotation speed of a direct current motor (or the light capacity of an electric bulb), by means of the regulation of the voltage. The adjusting range is between 0 and 100% of the rotation speed (or light capacity).

TECHNICAL DETAILS

Min. input Voltage	11 VDC
Max. input Voltage	30 VDC
Max. continuous output current	25 A
Max. output current	30 A
Potentiometer	4 k 7
Flat connectors	6,3mm
Dim. housing l x w x h	80 x 60 x 20mm
Height incl. connectors	30mm

At "zero" position of the knob (potentiometer), the through the control absorbed current is 0A

The unit's current limited, transient suppressed

The housing is water proof
